COMPLETE BUILT IN FRIDGES

BUILT IN COOLING UNITS

TB36 a “Joker” fridge!

*TB36 is the first fridge developed to be placed under the bank and it is a copy of DAF and RENAULT original ones. For this reason TB36 can be placed on **RENAULT MAGNUM** and **DAF CF** having the **same aesthetical** impact of the “genuine” ones, which are, anyway, produced by Indel B as well!*

TB36 a "Joker" fridge!

TB36 a “Joker” fridge!

Anyway, because of its small dimensions, TB36 is suitable for RENAULT PREMIUM and SCANIA as well. For SCANIA you have only to move the compressor unit to the left side of the fridge.

TB36 a "Joker" fridge!

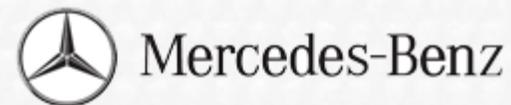

*Installation on board of
a Scania.*

TB025AM

MERCEDES ACTROS MP3 is equipped as standard with a drawer in which is possible to install TB025AM which fits perfectly as the genuine one! A fridge for NEW ACTROS MP4 is under development.

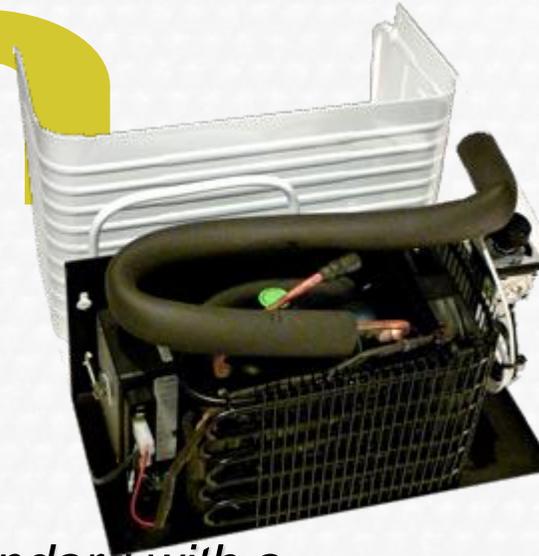

UR025

IVECO STRALIS is equipped as standard with a drawer in which is possible to install UR025 which fits perfectly as the genuine one (which is produced by Indel B).

UR035

MAN TGA/TGX as well is equipped as standard with a drawer in which is possible to install UR035 which fits perfectly as the genuine one.
